# NISHANTH R

Application Developer | Laravel | CodeIgniter | React | ERP / CMS / Billing | APIs
Coimbatore, Tamil Nadu | r.nishanth2004@gmail.com | 8220607076
Portfolio: https://nishanth0303.github.io/Nishanth-portfolio/application-dev.html | linkedin.com/in/rnishanth2004

## PROFESSIONAL SUMMARY

Application Developer with 5 years of experience building and supporting business applications, including customized ERP, CMS, billing, CRM, and e-commerce systems for multiple clients. Skilled in requirement analysis, payment gateway integration, mobile app API support, cloud (S3) integration, and MySQL databases, using Laravel, CodeIgniter, and React to deliver scalable, production-ready applications.

## TECHNICAL SKILLS

**Application Development:** ERP, CMS, CRM, billing and e-commerce applications, requirement analysis, client-specific customization
**Backend:** PHP, Laravel 10, CodeIgniter 3 & 4, Node.js (AI-assisted development), RESTful API Design & Integration
**Integrations:** Payment gateway integration, mobile app API support, third-party APIs, Cloud S3 integration
**Database:** MySQL - schema design, optimization, query tuning
**Frontend & Tools:** React, JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap 4 & 5, Git

## PROFESSIONAL EXPERIENCE

### Software Developer | Icore Software Technologies **Jun 2025 - Aug 2026**

*Coimbatore, Tamil Nadu*

- Developed and maintained customized **ERP**, **CMS**, and **billing** software for multiple clients based on individual business **requirements**.
- Built a marketplace-style module connecting the company's suppliers and products to **e-commerce** clients, limiting visibility to selected products and exposing order and tracking details in each client's software.
- Built customized **e-commerce** websites per client **requirements** using **Laravel** and **CodeIgniter**, covering product catalogs, checkout, order management, and **billing** logic.
- Developed and supported REST APIs for a companion **mobile app**, enabling data exchange between mobile client and backend.
- Integrated **payment gateways** and cloud (S3) storage across client **e-commerce** and **billing** applications; managed code with Git.
- Built dynamic front ends in **React** connected to **Laravel** and **CodeIgniter** backends, and developed Node.js services using AI-assisted (vibe-coding) workflows - 1 year of hands-on experience on production features.

### PHP Developer | Rk Creators **Sep 2022 - Jun 2025**

*Coimbatore, Tamil Nadu*

- Built a wholesale & retail jewelry **ERP** from scratch, including payment gateway integration for transaction processing.
- Delivered a full **CRM** platform and a **billing** system, built end-to-end.
- Gathered and analyzed client **requirements**, translating business needs into technical specifications and working solutions.
- Built secure, high-performance web applications using **CodeIgniter** 3, tailored to individual client **requirements**.
- Designed, optimized, and managed MySQL databases for performance and data integrity.
- Integrated third-party APIs and tools; diagnosed and resolved issues in existing applications to improve reliability.

### Web Developer | Mexerv **Nov 2021 - Sep 2022**

- Built responsive, visually polished websites using HTML, CSS, and Bootstrap.
- Implemented interactive front-end features with JavaScript to improve user engagement.
- Developed mobile-first layouts, ensuring a consistent experience across devices and screen sizes.

## PROJECTS

### E-commerce Supplier Marketplace Module

*Icore Software Technologies | Jun 2025 - Aug 2026*

- Built using **Laravel**, **CodeIgniter**, and **React**; connected internal suppliers/products to multiple **e-commerce** clients with per-client order and tracking visibility.

### Jewelry Wholesale & Retail ERP

*Rk Creators | Sep 2022 - Jun 2025*

- Built from scratch using **CodeIgniter** 3 and MySQL, with integrated payment gateway for order and **billing** processing.

### CRM & Billing Platform

*Rk Creators | Sep 2022 - Jun 2025*

- End-to-end **CRM** and **billing** system covering client and transaction management, built on **CodeIgniter** and MySQL.
