# NISHANTH R

Full Stack Developer | React · Node.js · Laravel · CodeIgniter
Coimbatore, Tamil Nadu | r.nishanth2004@gmail.com | 8220607076
nishanth0303.github.io/Nishanth-portfolio/full-stack.html | www.linkedin.com/in/rnishanth2004

## PROFESSIONAL SUMMARY

Versatile Full Stack Developer with 4.5+ years of experience engineering end-to-end web applications, integrating responsive React frontends with robust Node.js, Laravel, and CodeIgniter backends. Adept in modern JavaScript (ES6+), RESTful API development, MySQL database optimization, and AI-assisted (vibe-coding) workflows. Experienced in delivering complete e-commerce platforms, custom CRM/ERP systems, and interactive client applications from initial architecture to production deployment.

## TECHNICAL SKILLS

**Frontend Development:** React, JavaScript (ES6+), HTML5, CSS3, Bootstrap 4/5, jQuery, AJAX, Responsive Web Design

**Backend Development:** Node.js, Express.js, PHP, Laravel 10, CodeIgniter 3 & 4, RESTful API Architecture, Microservices

**Database & Tools:** MySQL (Schema Design, Optimization, Query Tuning), Git, JSON/XML, Postman

**Workflows & Soft Skills:** AI-Assisted Workflows (Vibe-Coding), Requirement Analysis, Full SDLC, Performance Tuning

## PROFESSIONAL EXPERIENCE

### Full Stack Developer — Icore Software Technologies *Jun 2025 – Present*

- Build dynamic frontend interfaces in React and seamlessly connect them to backend services developed in Node.js and Laravel 10.
- Pioneered AI-assisted (vibe-coding) development workflows over 1+ years to rapidly build, test, and ship full-stack features to production environments.
- Architect full-stack e-commerce systems, designing interactive product selection interfaces on the frontend while managing robust database and order logic on the backend.
- Design and maintain secure RESTful APIs that connect web client frontends and companion mobile apps with backend databases.

### Full Stack PHP Developer — Rk Creators *Sep 2022 – Jun 2025*

- Engineered end-to-end customized web software solutions—including a complete CRM platform, ERP system, billing tool, and jewelry management portal—using CodeIgniter 3, JS, and MySQL.
- Crafted intuitive, responsive client interfaces using HTML5, CSS, Bootstrap, and AJAX, ensuring smooth real-time data flow with the server.
- Handled full database lifecycle: modeled MySQL schemas, authored efficient queries, and established indexes for high-speed data retrieval.

- Interfaced directly with clients to translate functional product requirements into full-stack architecture and technical deliverables.

**Web Developer — Mexerv** *Nov 2021 – Sep 2022*

- Crafted clean, responsive, mobile-first web pages utilizing JavaScript, Bootstrap, and CSS3.
- Enhanced UI/UX interactivity by implementing dynamic client-side scripting and seamless navigation elements.

**Freelance Web Developer — Friendship Community Care** *Sep 2022*

- Delivered a complete client website project independently, managing both full-stack frontend design and backend deployment.

## EDUCATION

**Bachelor of Engineering (B.E.) — Computer Science and Engineering**
Ambal Professional Group of Institutions, Palladam | CGPA: 7.76/10 | 2017 – 2021

**Higher Secondary Education (HSC)**
NCP MPL HR SEC School, Dharapuram | Percentage: 76% | 2016 – 2017
